Priester Aviation Adds Three Aircraft at Denver's Centennial Airport (APA)

WHEELING, IL — Priester Aviation, LLC announced that it is joining forces with XJet, the world's first FBO / Hangar Club developer headquartered at Denver's Centennial Airport (APA). This partnership brings three additional aircraft to Priester's operating certificate including a 9-seat Falcon 50EX, 10-seat Gulfstream 200 and a brand new 8-seat Piaggio. Both super mid-size aircraft increase Priester's long range capability while the Piaggio offers a pleasurable ride in a luxurious cabin. All aircraft are great additions to the existing versatile fleet. In addition, Priester's expansion into Western markets provides increased flexibility to existing and new customer bases. Priester Aviation is excited for the opportunity to partner with such premier aviation services in XJet and looks forward to serving the Denver market for years to come.
